

Engine Identification for CARB

CARB regulations for in-use equipment are based on engine model year. Below are engine model year identification photos for Tier I and Tier II models. Pre-Tier engines (1998 and older) did not have sticker identification

The engine model year decal will be located on top of the valve cover

The engine model year will be identified on the decal

In this example of a 2007 model year Tier 2 engine, it says:

**THIS ENGINE MEETS 2007 Tier 2 EMISSION REGULATIONS
FOR U. S. EPA AND CALIFORNIA NONROAD CI ENGINES**
